Education

2020–2025 **Mechatronics Engineering**, *University of São Paulo*, São Carlos - SP
- Adaptability, Multidisciplinary, Modeling, Computation, Problem Solving, Python

2023–2025 **Special Studies on Computing**, *ICMC/USP*, São Carlos - SP
- One of the 10 students selected from the Campus

Experience

Professional

02/26–Current **Software Analyst Jr.**, *LUZ Soluções Financeiras*, São Carlos - SP
- Core development of a new regulatory web application for Bacen and integration with legacy systems.
- **C#**, React, Docker, GitLab CI, Oracle SQL

09/24–07/25 **Data Science Consultant Intern**, *Grupo Visagio*
- Application of data science concepts to the business rules of a large bank that was undergoing digitalization.
- **Python** (LangChain, OpenAI API, Gemini API, etc.), **SQL**

Academic

12/21–01/23 **Mechanical Engineering Director - Voluntary**, *EESC-USP Tupã*
- Coordination and leadership of a 10-person core team focused on the design, manufacture, and validation of a Formula SAE Electric car.

Projects

02/26–Current **Regulatory Web Application**, *LUZ Soluções Financeiras*
- Development of a new web app (C#, React) for a major Banco Central do Brasil (Bacen) regulation, delivering a **functional MVP in 45 days**.
- **Authentication** using Amazon Cognito (PKCE) and created GitLab **CI/CD pipelines** to automate NPM publishing and **Docker deployments**.
- Worked as the **sole developer for approx. 20 days** during a key phase, enabling leadership to present the app to Bacen and 10+ financial institutions, receiving **company-wide recognition**.
- Currently integrating the new app with a legacy Delphi/C# system, performing data mapping and database migration to Oracle.

07/25–12/25 **Adultization Identifier - Browser Extension** , *Undergraduate Thesis - USP*, Grade of 10,0/10,0
- A Chrome extension to identify and blur Instagram posts with sexualized content involving children.

07/25–12/25 **Contributions for *ImprovedTube***, *GitHub*, +400,000 users

05/25–06/25 **Automated legal process classification system**, *Grupo Visagio*
- Suport and improvement of the on-going system, adding new features and keeping a $> 90\%$ accuracy

09/24–04/25 **Organization of important data warehouses of a major bank**, *Grupo Visagio*
- Interconnected data marts of credit and debit cards using SQL and visualization of KPIs through dashboards

09/23–09/24 **Finite Elements optimization with Neural Networks - Scientific Initiation**, *USP/CNPq*
- Python, **Artificial Neural Networks**, Artificial Intelligence, Scientific Research, MatLab, Optimization

Courses and Certificates

2025–... **The Complete Full-Stack Web Development Bootcamp**, *Udemy*, 62-hour course
- JavaScript (**Node.js**, **React.js**, **jQuery**, etc.), CSS, HTML, SQL, UX

12/2025 **Forward Learning Program**, *McKinsey*, 18-hour course
- Adaptability, Problem Solving, Communicating for Impact

12/2025 **English C1 Advanced**, *EF SET*
